Featuring 4 Expert Speakers

World-Renowned Expert in the Microbiome

Dr. Jack Gilbert
University of Chicago

Recognized Specialist in Dietary Polysaccharides

Dr. Bruce Hamaker
Purdue University

Authority on Health Impact of Gut Microbiome

Dr. Hannah Holscher
University of Illinois at Urbana-Champaign

Pioneer on Fiber Systems for Consumer Products

Dr. Keith Garleb
Abbott Nutrition

Symposium Learning Objectives

- 1) Untangle the taxonomy and vast array of bacteria present in the human gut microbiota
- 2) Elucidate the diversity of fiber and its role in fueling human gut microbes
- 3) Establish a connection between one's health and gut microbiota
- 4) Demonstrate how industry is translating the science into consumer products
